Seminar on **SUSTAINABILITY REPORTING**

Friday, July 22, 2022

6:00 pm – 9:00 pm

Platform:
ICAP House, Karachi
Out of Station: Via Zoom

Organized by: Southern Regional Committee (SRC)

PROGRAMME OVERVIEW

Sustainability reporting has gained global attention and momentum, and accountancy professionals have a significant role in driving the sustainability reporting.

In November 2021, the IFRS Foundation established the International Sustainability Standards Board (ISSB) with a vision to develop comprehensive global high-quality sustainability reporting standards. The IFRS Sustainability Disclosure Standards issued by the ISSB are expected to become the globally recognized framework for corporate sustainability reporting (Similar to the way IFRS Accounting Standards issued by International Accounting Standards Board have become global standards for financial reporting - IFRS are now used in over 140 jurisdictions).

The ISSB has issued exposure drafts (EDs) of two IFRS Sustainability Disclosure Standards for stakeholders' consultation. The proposed IFRS Sustainability Standard 1, sets out general sustainability related disclosure requirements and proposed IFRS Sustainability Standard 2 specifies climate-related disclosure requirements.

The Accounting Standards Board (ASB) of the Institute in collaboration with the Southern Regional Committee (SRC) is organizing a seminar on the proposed IFRS Sustainability Disclosure Standards. Join us in the discussions and presentations, as this seminar will provide you a platform to learn and share thoughts on the proposed sustainability reporting standards.

Host

Shaikh Ahmed Salman

CPD convenor
Technical & Professional Affairs - SRC
